### About Me

---

Hi! I'm a mid-level developer with more than 3 years of experience in frontend and some backend development. I'm open to new experiences, challenges, and roles. I'm more comfortable with hybrid and remote work than on-site. Check out [my portfolio](#) for more details.

### Skills

---

- **Programming Languages:** TypeScript, Go, JavaScript, HTML, CSS, Sass
- **React:** React, Next.js, React Router, Vite
- **State Management:** Redux, Redux Toolkit, Zustand
- **Testing:** Jest, RTL, Cypress
- **UI Libraries:** MUI, Antd, Chakra, Tailwind, Chart.js, Three.js
- **Form Management:** Formik, React Hook Form
- **Animation:** Framer Motion, React Spring
- **Web3:** Web3.js, Ethers.js, Viem, Wagmi
- **Node.js:** Node, Nest.js, TypeORM, Express
- **Go:** Go, Gin, Gorm
- **Databases:** PostgreSQL, MongoDB
- **Other:** Lodash, Axios, Virtualization (React Window), React Query, React Table, PWA, RxJS
- **Tools and Technologies:** Git, Rabbitmq, Docker, Linux, Scrum

### Experience

---

#### FullStack Developer, Maaher TSP

---

*Apr 2023 – Present*

- Developed an Excel processor microservice using Go, Gin, RabbitMQ, Gorm, and PostgreSQL.
- Developed the frontend of Maaher TSP dashboard using React, MUI, React Query, React Table, Formik, Jotai, Lodash, Axios, and Framer Motion.

#### Frontend Developer, Raahbar ICT

---

*Jul 2022 – Apr 2024 (9 months)*

- Built the Maaher TSP application frontend, including data visualizations and a dynamic form generator with complex validations using React, MUI, React Query, React Table, Formik, Jotai, Lodash, Axios, and Framer Motion.
- Refactored and optimized legacy code, replacing it with new modules and components.
- Managed frontend app Dockerization and deployment on Swarm.
- Developed and customized a Keycloak SSO client using React and Keycloakify.
- Developed an admin panel for the Ministry of Economy program using TypeScript, React, Chart.js, and MUI.
- Contributed to a project management app with complex authorization mechanisms using TypeScript, Next.js, React Query, React Hook Form, and MUI.

## Frontend Developer, Barcode Software Agency

---

*Jun 2021 – Jul 2023 (2 years 1 month)*

- Developed admin and user panels for SGB Prop Trading Firm using React and Antd.
- Created an NFT collection smart contract and its dApp using React, Next.js, Solidity, and Web3.js.
- Built multiple websites for different businesses.

## Languages

---

- **English:** Fluent
- **Persian:** Native
